Career Objective

To secure a challenging role in software development where I can apply my academic knowledge, practical experience in low-code platforms, and analytical skills to build scalable, efficient, and impactful digital solutions while continuously advancing my professional growth.

Technical Expertise

Programming: Java, Python, C, C++, Data Structures & Algorithms (DSA)

Web & Low-Code: Zoho Creator (Low-Code Development), Web Designing Fundamentals, SEO

Core CS: Database Management Systems (DBMS), Operating Systems, Data Mining Techniques

Tools & Platforms: Cloud Deployment, Workflow Automation, Microsoft Office, Git

Internship Experience

FCPA International Services (Zoho Partner)

India

Zoho Creator Intern

July 2025–August 2025

- Designed and developed a comprehensive Patient Information Management application using the **Zoho Creator** low-code platform.
- Implemented complex **automated workflows**, field validations, and logical data structuring to enhance data collection accuracy.
- Collaborated with cross-functional teams to translate business and operational requirements into functional cloud-based solutions.
- Gained hands-on exposure to **Business Process Automation** and cloud deployment strategies in a professional environment.

Projects

Zoho Creator

Patient Details Management Application

Low-Code Dev

- Developed a secure cloud-based application to digitize patient records, significantly reducing manual data entry errors.
- Structured optimized data retrieval mechanisms to improve operational efficiency for medical staff.

Wadhvani Ignite Program

NEURA – AI Chatbot for Department of Justice

AI/Startup

- Contributed to the development planning of an AI-powered virtual assistant focused on judicial and legal information services.
- Conducted module planning for **NJDG integration**, case tracking, and eCourts services to ensure digital legal accessibility.
- Focused on scalability, structured documentation, and user-centric interface planning for legal technology.

Education

PSGR Krishnammal College for Women <i>Bachelor of Science in Computer Science</i>	India 2024–2027
Science Stream <i>Higher Secondary Education (12th Grade), India</i>	CMS Matriculation Higher Secondary School 2023–2024
<i>Secondary School Education (10th Grade), India</i>	CMS Matriculation Higher Secondary School 2021–2022

Certifications & Achievements

Wadhvani Ignite Program <i>Startup Initiative</i>	Innovation-driven Startup Participant 2025
Data Structures and Algorithms <i>Technical Prep</i>	Interview Readiness Certification 2024
Learnings: Practical knowledge in predictive/descriptive data mining, digital marketing, and cloud deployment.
